Yes, originally we had more people on the cc list – including the state. However, we really only need to send it to the 3 lead agencies. Our thought was to send it to Will Stelle at NOAA, copy the Bureau of Rec and Fish & Wildlife.

Question - the letter goes to the 3 agencies - no cc's?

Sorry to start your day with this! I just spoke with Jared – he is supportive of our approach to send comments today and post on Thursday at the same time as the lead agencies' press release. He offered, if you think helpful, to speak with Gina. Otherwise, please feel free to call me. The water interests are coming in at 2:00 our time – so in any event, we wouldn't send anything out until after that meeting. Thanks!
